What Changes did the Agency Make between FY'15 and FY'16?

1.) Are there any services no longer provided because of budget cuts?

The Department received no budget cuts for SFY 2016.

2.) What services are provided at a higher cost to the user?

Non

3.) What services are still provided but with a slower response rate?

None

4.) Did the agency provide any pay raises that were not legislatively/statutorily required? If so, please provide a detailed description in a separate document.

No pay raises were provided between SFY 2015 and SFY 2016.

FY'17 Top Five Appropriation Funding Requests	
	\$ Amount
Request 1: Public Health Laboratory	\$6,009,070
Request 2: Immunization Vaccine	\$1,556,386
Request 3: Description	
Request 4: Description	
Request 5: Description	
Total Increase above FY-17 Request	7,565,456

	How would the agency handle a 5% appropriation reduction in FY'17?						
\$ Amount	Description						
\$10,000	Oklahoma State Athletic Commission: This would reduce the number of inspectors trained for events scheduled in SFY-17						
\$500,000	Elimination of the RFP for the establishment of a Cord Blood Bank would take effect July 1, 2016 which supports positions within the Oklahoma Blood Institute. The SFY-17 RFP will require the implementation of the Enhanced Strategic Plan for the operation of the Umbilical Cord Blood Bank of Oklahoma.						

\$2,521,624	projected that by the end of the fiscal year the total uninsured encounters reimbursed will be 14,502. According to the most recent Uniform Data System (UDS) report, the 3 FQHCs that regularly claim to the UCF provided services to 33,205 uninsured patients in 2014.
\$3,031,624	Total Reduction of Expenditures

	How would the agency handle a 7.5% appropriation reduction in FY'17?					
\$ Amount	Description					
\$15,000	Oklahoma State Athletic Commission: This would reduce the number of inspectors trained for events scheduled in SFY-17 and impact attendance by Board Commissioners to national conferences.					
\$500,000	Elimination of the RFP for the establishment of a Cord Blood Bank would take effect July 1, 2016 which supports positions within Oklahoma Blood Institute. The SFY-17 RFP will require the implementation of the Enhanced Strategic Plan for the operation of the Umbilical Cord Blood Bank of Oklahoma.					
\$1,479,959	Community Based Child Abuse Prevention: A 50% cut would impact 369 families that would not be served and approximately 26 positions within community non-profit organizations would no longer be funded. In order to determine which programs would be eliminated, contractors will be rated and ranked by the number of home visits made and number of families served.					
\$2,552,477	FQHC Uncompensated Care: A reduction in funds to the OSDH would eliminate the FQHC UFC and prevent the OSDH from reimbursing FQHCs for uncompensated care costs associated with the delivery of primary, dental, and behavioral health care to uninsured patients. For SFY16, OSDH is in contract with 15 FQHCs (representing 67 sites), in which 3 FQHCs have submitted and were eligible for reimbursement from the UCF. In the first three months of SFY16, the UCF reimbursed these FQHCs for 3,624 uninsured encounters, and it is projected that by the end of the fiscal year the total uninsured encounters reimbursed will be 14,502. According to the most recent Uniform Data System (UDS) report, the 3 FQHCs that regularly claim to the UCF provided services to 33,205 uninsured patients in 2014.					
\$4,547,436	Total Reduction of Expenditures					

	How would the agency handle a 10% appropriation reduction in FY'17?
\$ Amount	Description
\$20,000	Oklahoma State Athletic Commission: This would reduce the number of inspectors trained for events scheduled in SFY-17; impact attendance by Board Commissioners to national conferences and reduce the number of inspectors employed to ensure compliance with Athletic Commission regulated events.
\$500,000	Elimination of the RFP for the establishment of a Cord Blood Bank would take effect July 1, 2016 which supports positions within the Oklahoma Blood Institute. The SFY-17 RFP will require the implementation of the Enhanced Strategic Plan for the operation of the Umbilical Cord Blood Bank of Oklahoma.
\$2,896,014	Community Based Child Abuse Prevention: This would impact approximately 749 families that would not be served and approximately 52 positions within community non-profit organizations would no longer be funded. This would impact all 13 regional contractors.
\$2,552,477	FQHC Uncompensated Care: A reduction in funds to the OSDH would eliminate the FQHC Uncompensated Care Fund and prevent the OSDH from reimbursing FQHCs for uncompensated care costs associated with the delivery of primary, dental, and behavioral health care to uninsured patients. For SFY16, OSDH is in contract with 15 FQHCs (representing 67 sites), in which thus far 3 FQHCs have submitted and were eligible for reimbursement from the Uncompensated Care Fund (UCF). In the first three months of SFY16, the UCF reimbursed these FQHCs for 3,624 uninsured encounters, and it is projected that by the end of the fiscal year the total uninsured encounters reimbursed will be 14,502. According to the most recent Uniform Data System (UDS) report, the 3 FQHCs that regularly claim to the UCF provided services to 33,205 uninsured patients in 2014.
\$94,757	OSDH Infrastructure will be impacted with the elimination of one management level vacant position which requires the permanent redistribution of responsibilities to existing FTE. The reduction is based on actual salary and estimate benefit cost to refill the position.
\$6,063,248	Total Reduction of Expenditures

Is the agency seeking any fee increases for FY'16?						
None for SFY 2017	\$ Amount					
Increase 1 N/A	\$0					
Increase 2 N/A	\$0					
Increase 3 N/A	\$0					

What are the agency's top 2-3 capital or technology (one-time) requests, if applicable?

The Department is requesting funding from a bond issuance to construct a new Public Health Laboratory (PHL) and additional state appropriations to make annual debt payments.

Federal Government Impact

1.) How much federal money received by the agency is tied to a mandate by the Federal Government?

The Department receives approximately 56% of the overall budget from federal sources. Those monies come with certain expectations or obligations of performance but do not necessarily constitute "mandates". In some instances, the federal monies are used to support state mandates where appropriated monies or fees cannot sustain programmatic efforts such as infectious disease programs.

2.) Are any of those funds inadequate to pay for the federal mandate?

As mentioned above, a considerable portion of federal monies received by the Department are utilized to support state level mandates.

3.) What would the consequences be of ending all of the federal funded programs for your agency?

Discontinuation of federal programs and funding would significantly impact public health systems and service delivery. Most federally funded programs serve statewide initiatives and impact the entire citizenry. Those programs include but are not limited to focus on the following public health issues; All Hazards Preparedness, Communicable Disease Prevention and Control, Maternal and Child Health Services, Nursing Home and Health Facility Inspection and Regulation as well as many others. The discontinuance of such services could dramatically impact health status in Oklahoma, leave our citizens vulnerable to outbreaks of disease and virtually eliminate the capability of a coordinated health and medical response in an emergency. Further, the elimination of these federal programs would result in the loss of jobs within and outside the Department due to necessary reductions in personnel and elimination of contractual services currently provided. At present, approximately 50% of the Department staff are funded on federal funding sources.

4.) How will your agency be affected by federal budget cuts in the coming fiscal year?

The Department is unaware of any federal budget cuts that will result in reductions to federal revenue in the coming fiscal year.

5.) Has the agency requested any additional federal earmarks or increases?

The Department has not requested any federal earmarks. However, approximately, 56% of the Department's funding is awarded through approximately 75 separate federal revenue streams. The level of funding for each program is tied directly to the federal funding available as well as the federal guidance documents. The Department continues efforts to identify all available funding opportunities that align with core public health functions, the Department's business plan and the Oklahoma Health Improvement Plan.

Division and Program Descriptions

Public Health Imperatives

Protect the health/safety of the citizenry against infectious, occupational and environmental hazards; ensure adequate health/medical emergency/response; and offer protection to vulnerable persons against exposure to severe harm

Priority Public Health - Improvement of Health Outcomes

Health promotion and interventions aimed at reducing poor health outcomes and excess death in Oklahoma

Prevention Services and Wellness Promotion

These services are characterized by public health programs that prevent adverse health conditions and consequences and/or promote health and wellness

Access to Competent Personal, Consumer and Healthcare Services

These services may include the training and education of public health and/or private medical providers, linking individuals to healthcare services or the provision of healthcare services when otherwise unavailable

Science and Research

Services that seek to research public health problems & interventions for effectiveness; improve the practice of public health; and enhance the body of public health research through scientific publication and presentation

Public Health Infrastructure

The public health infrastructure exists to support specific imperative, priority and other public health programs. These include infrastructure costs associated with providing a statewide public health presence
